

NEW IN ALL MEETING ROOMS

at Village Hotel Club

introducing ClickShare

3 easy steps to wireless presenting on our new 65 inch TV monitors
Available now in all Village meeting rooms
Instant, Simple, Interactive

NO WIRES

ClickShare's universal USB-powered Button avoids the unsightly jumble of cables. It requires no special adaptor or port and with no cables, you will spend less time setting up and more time being productive.

NO SOFTWARE

When you plug in the ClickShare button, there's no software to download and install. You simply accept an executable file and you're ready to go. Once finished, ClickShare leaves no software on your PC or Mac.

SIMPLICITY

ClickShare couldn't be simpler. Everything works with the tap of a button. Connecting ClickShare does not alter your screen size or resolution so what you see on your laptop screen is replicated onto our new 65 inch TV monitors.

CROSS DEVICES

Whether you present from a PC or Mac, ClickShare has it covered – you just need to check that your USB and/or HDMI port has not been disabled by your IT department on your company laptop.

INTUITIVE

One tap of the ClickShare button now gives you the quickest and most efficient way to access our meeting room screens. ClickShare now available in all Village meeting rooms and is included in your daily delegate or 24 hour rate.

Bringing people, content and ideas together.

CONNECT, CLICK, SHARE
